EarthHumic

Humic Acid Soil Conditioner

DERIVED FROM
LEONARDITE

Guaranteed Analysis

Soluble Potash (K₂O).....1%
Derived from Potassium Hydroxide

ALSO CONTAINS BENEFICIAL SUBSTANCES
Humic Acids derived from Leonardite 8%

0-0-1

BENEFITS:

- Contains Humic Acid from Leonardite
- Plant Biostimulant
- Acts to support a plant's natural nutrition process
- Humic acid may increase micronutrient uptake.

Net Contents: 1 Gallon (3.78 L)
Net Weight: 9.1 lbs (4.13 kg)

DIRECTIONS FOR USE SHAKE WELL BEFORE USE

General Use:

Dilute with water and apply to soil or as a foliar spray.

Soil Application:

Apply **1–2 oz per gallon of water**.
Drench soil around the root zone. Repeat every **2–4 weeks** during the growing season.

Foliar Application:

Apply **0.1–0.3 oz per gallon of water**.
Spray directly onto leaves until evenly coated. Apply during early morning or late evening.

Agricultural Use (Per Acre):

Apply **1–2 gallons per acre** via irrigation or spray systems.

APPLICATION TIMING

At planting or transplanting
During active growth stages
Before flowering or fruiting
Post-harvest to improve soil condition

PRECAUTIONARY STATEMENTS:

Keep out of reach of children. Avoid contact with eyes, skin, and clothing. Wear appropriate protective equipment during handling and application. Wash thoroughly after handling. Do not reuse empty containers. Dispose of in accordance with local regulations. Use only as directed. Do not exceed recommended application rates. Soil and/or tissue analysis is recommended for optimal use.

STORAGE CONDITIONS:

Store in the original, tightly closed container in a cool, dry place. Protect from direct sunlight and extreme temperatures. When stored properly, the product will maintain its physical and chemical properties for at least 5 years.

Recommended storage temperature: 41°F to 113°F (5°C to 45°C).
